WORK PREFERENCES

- Prefer to work in a minimalist and organized workplace
- I work best between the hours of 11am-7pm
- I enjoy the freedoms of remote work
- I prefer working in groups where the work is equally distributed and teammates pull equal weight.
- Value new opportunities to continuously learn
- Work-life balance is mandatory
- A pet peeve of mine is bringing work home
- I thrive in roles with creative freedom
- Working in a diverse and inclusive environment is essential to me
- I get irritated when I am asked questions without the person trying it out first
- Frustrated easily in group settings when forced to carry most of the weight

Maximize Potential

As an innovative thinker, I thrive on exploring new ideas and finding creative solutions. I prefer autonomy with some guidance, rather than group work or micromanagement. Here's what works best for me:

- I break tasks into manageable steps, maintaining focus while working independently.
- I enjoy brainstorming and experimenting with new concepts, often drawing inspiration from art or nature.
- I value freedom within boundaries, appreciating guidance that allows for personal expression.
- Constructive feedback from mentors or peers helps refine my ideas without stifling my creativity.
- Celebrating milestones motivates me to achieve my goals and acknowledge my growth.
